In implementation of the decree with the force of Law No 30, 1954, of the Presidential Council, the Council of Ministers has issued Resolution 1.089/1954. (X1.4), which provides for the establishment of the Ministry of State Farms and the National Chief Directorate for Forestry (Orszagos Erdeszeti Foigazgatosag).

Effective 1 November 1954, the Ministry of State Farms will be organized as an independent ministry, and the following organs will be placed under its supervision: (1) state farms operating under the Directorate of State Farms; (2) the Balaton Fishing Enterprise (Balatoni Halaszati Vallalat) and the Fishery Trust (Halgazdasagi Troszt) and its subsidiary fisheries; (3) the Technical Planning and Plant Organization Enterprise for State Farms (Allami Gazdasagok Muszaki-tervezesi es Uzemszervezesi Vallalata); (4) the Agricultural Construction Industry Trust (Mezogazdasagi Epitoipari Troszt) and its subsidiary enterprises; (5) the Civil Engineering Enterprise for Fish Hatcheries (Togazdasagi Melyepito Vallalat); (6) the Institute of State Farms (Allami Gazdasagok Intezete), which replaces the Szekkutas Experimental Institute (Szekkutasi Kiserleti Intezet); and (7) the Mezohegy Machine Repair Enterprise (Mezohegyesi Gepjavito Vallalat).

Contrary to prior practice, state farms are responsible for the husbandry and marketing of all cane and reed resources.

Effective 1 November 1954, the Chief Directorate for Forestry of the Ministry of Agriculture is to be reorganized into the National Chief Directorate for Forestry, which will be under the direct control of the Council of Ministers. In general, it will supervise the conservation and management of the nation's forest and wildlife. A department of forest management will be established within to Chief Directorate of Forestry.

The head of the Chief Directorate of Forestry and his three deputies will be appointed by the Council of Ministers. A board (kollegium) will be created to assist the head of the Chief Directorate of Forestry in his work
